# Health, Safety, Environmental and Quality Policy

Solartron ISA is a leading supplier of wellhead flow meters for the Oil & Gas Industry. We design, manufacture and support equipment used for flow measurement applications across the globe.

We are committed to providing safe, sustainable, reliable, quality products and services that meet customer expectations, and to setting objectives to continually improve our integrated management systems (ISO 9001:2015, ISO 14001:2015, and ISO 45001:2018).

Solartron ISA is committed to providing the resources to:

- Comply with all applicable statutory, legislative, directive, and regulatory requirements.
- Provide safe and healthy working conditions for the prevention of work-related injury and ill health through the elimination of hazards and reduction of OH&S risks;
- Consult with and encourage employee participation in the development and improvement of workplace health, safety, and environmental management;
- Consider environmental requirements over the life cycle of our products and services, including the prevention of pollution and reduction of waste;
- Ensure all employees are made aware of and understand the IMS policy, procedures and supporting documentation, through training and provision of information.

This policy, dated 30th May 2025 will be reviewed periodically and is endorsed by:
