

Business Management Policy

ISO 9001

ISO 14001

OHSAS 18001

Solartron ISA, an AMETEK group company, is committed to supplying our customers with flow and temperature measurement solutions which meet our customer's expectations.

This is achieved through the senior management team demonstrating leadership and commitment and taking accountability for the effectiveness of our Health, Safety, Environmental & Quality Management System which controls the company's business and support processes.

The senior management of Solartron ISA will set and monitor business objectives aimed at the continual improvement of our products, services and the business management system. We will aim to satisfy relevant interested parties and we are committed to the prevention of risk to health, safety and environmental harm.

Solartron ISA will comply with all statutory legal and other European directives where applicable.

The business management system meets the requirements of ISO 9001: 2015, ISO14001:2004 & OHSAS 18001:2007

This policy is communicated to all company employees, made available to relevant interested parties and is regularly reviewed by the company's management team.
